SUMMARY

Computer Engineering graduate (CGPA 8.18) with hands-on experience building full-stack web applications using React.js, JavaScript, Node.js and Express.js. Built and deployed an accessibility-focused e-learning platform and a reusable UI component library, and is building an AI-powered interview preparation platform. Experienced in REST APIs, JWT authentication, MongoDB and responsive interfaces, with a strong foundation in DSA, OOP and DBMS.

TECHNICAL SKILLS

Languages: JavaScript, Java, C

Frontend: React.js, React Router, HTML5, CSS3, SCSS/Sass, Bootstrap, Vite

Backend: Node.js, Express.js, REST APIs, Passport.js, JWT, Session Auth

Databases: MongoDB, Mongoose, PostgreSQL, Drizzle ORM

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Tools: Git, GitHub, Postman, Docker, Vercel, Netlify, Render

EXPERIENCE

Software Engineer Intern – Yuga Yatra Retail (OPC) Pvt. Ltd.

Mar 2026 – May 2026

- Developed and refined UI pages for an auction marketplace using React.js and CSS.
- Worked on layouts, styling and responsive design to improve the experience across screen sizes.
- Collaborated with the team, incorporated feedback, and identified and fixed UI issues.

Full Stack Development Intern – Sumago Infotech Pvt. Ltd.

Dec 2024 – Feb 2025

- Developed responsive pages for a food delivery application using JavaScript, HTML5, CSS and Bootstrap.
- Worked on page layouts, UI components, styling and responsive behavior for mobile and desktop.
- Gained practical experience in frontend development, debugging and teamwork.

PROJECTS

SensiQ – Inclusive E-Learning Platform

[Source Code](#) | [Live Demo](#)

React.js, Node.js, Express.js, MongoDB, Gemini AI

- Built an e-learning platform for Deaf, Mute and Visually Impaired learners.
- Integrated Google Gemini AI, Web Speech API and ISL Engine for accessibility-focused learning.
- Developed REST APIs with Passport.js, JWT and session auth; built responsive UIs with React Router.

UIForge – Reusable UI Component Library

[Source Code](#) | [Live Demo](#)

Vanilla JS, HTML5, SCSS/Sass, Vite

- Built a component library from scratch with 10+ interactive components (forms, dropdowns, tabs, pagination).
- Developed a modular SCSS system with design tokens, utility classes and a responsive 12-column grid.
- Created a documentation page demonstrating component usage and design-system guidelines.

AI Interview Coach – AI Interview Prep Platform

[Source Code](#)

React.js, Node.js, MongoDB, Gemini AI

- Developing a platform for entry-level developers to practice technical interviews by role and difficulty.
- Built backend registration and authentication with bcrypt and JWT, plus protected routes via authorization middleware.
- Integrating Gemini AI to generate role-specific questions and give feedback on answers.

EDUCATION

Sanghavi College of Engineering

2022 – 2026

B.E. in Computer Engineering | CGPA: 8.18/10 | First Class with Distinction

CERTIFICATIONS & ACHIEVEMENTS

- Data Analytics Virtual Experience – Deloitte Australia (Apr 2026)
- Data Visualisation: Empowering Business with Effective Insights – Tata (Apr 2026)
- Top Score Band (50+) – TCS iON National Qualifier Test (NQT)
